

12 November 2018 | Term 4 Week 6

## Welcome from the Principal

Welcome to the half way point of the term, and for our year 6 students, the last month of primary education. Some of these students will have mixed feelings about moving to secondary school – from being excited to nervous and worried. This is normal as they move from a very familiar routine to the unknown.

As parents we can help ease these worries for these students by preparing them before the new school year begins. You can do this by:

1. Making sure they attend the transition days coming up this term. It's important for them to learn where they need to be for the start of next year.
2. Talk to them about their feelings and also what they are looking forward to at high school. Let them talk about their worries and don't ignore them.
3. Talk to your child about friendships, and how to maintain these in high school and how new friends will come along.

Moving into high school from our small school can be very daunting – but that feeling doesn't last long.

I look forward to seeing the end of year activities Mr Brunt has planned for his students.
